

## 2001 Small Business Profile: WASHINGTON

That the small business sector is as an economic engine indispensable to Washington's well being is apparent in the *2001 Small Business Profile*, compiled by the U.S. Small Business Administration's Office of Advocacy. The results in this report show that small businesses are job generators and innovators, and that they represent an array of opportunities to the diverse spectrum of individuals in their communities.

**Number of Businesses.** In 2000, the number of employer businesses increased by 2.7 percent, and it is estimated that the number of self-employed individuals decreased by 11.2 percent. There were 194,977 employer businesses, and nearly 98.2 percent were small (with fewer than 500 employees) in 2000. Self-employed persons were estimated at 226,411 in 2000. (Sources: U.S. Dept. of Labor, Employment and Training Administration; U.S. Dept. of Commerce, Bureau of the Census; U.S. Dept. of Labor, Bureau of Labor Statistics)

**Women-Owned Businesses.** Women-owned businesses generated \$15.1 billion in revenues, employed 139,032 workers, and constituted 123,000 firms or 27.5 percent of all firms in 1997. The data on women-owned firms are not comparable between 1992 and 1997. (Sources: U.S. Dept. of Labor, Bureau of Labor Statistics, U.S. Dept. of Commerce, Bureau of the Census)

**Minority-Owned Businesses.** According to the latest (1997) Census data, a total of 42,900 minority-owned businesses represented 9.6 percent of the businesses in the state and generated \$11.3 billion in revenues. Of these, 11,400 were employer businesses employing a total of 88,304 workers. There were 10,000 Hispanic-owned firms; 5,600 Black-owned businesses; 23,300 Asian and Pacific Islander-owned firms; and 4,700 American Indian and Alaskan Native-owned businesses in 1997. (The data on minority-owned firms are not comparable between 1992 and 1997.) Data may not sum to the total because an owner may be a member of more than one minority group. (Source: U.S. Dept. of Commerce, Bureau of the Census)

**Business Turnover.** There were 5.9 percent or 40,357 more new employer firms in 2000 than in 1999. Business bankruptcies totaled 717 in 2000, an increase of 13.4 percent since 1999, while business terminations amounted to 41,793, an increase of 1.8 percent from 1999. (Sources: U.S. Dept. of Labor, Employment and Training Administration; Administrative Office of the U.S. Courts; U.S. Dept. of Commerce, Bureau of the Census)

**Employment.** Small business employment represented 56.3 percent of the state's total employment and firms numbered 134,291 in 1998. Small businesses employed 1,201,144 of the state's 2,134,598 total non-farm private sector workers (Table 1). (Source: U.S. Dept. of Commerce, Bureau of the Census, Statistics of U.S. Businesses)

**Small Business Income.** The non-farm proprietors' share of small business income totaled \$13.3 billion—an increase of 8.2 percent from \$12.3 billion in 1999. (Source: U.S. Dept. of Commerce)

**Finance.** Small businesses often rely upon local bank services, and the number of banks within the state has increased over the last five years. The Office of Advocacy has published banking studies identifying banks within the state that are small-business-friendly. (See Table 2 for the number of banks by asset size.) Small businesses seeking loans should also consider lenders that participate in the SBA's preferred or certified loan programs; for a list of these lenders, call the Small Business Answer Desk at (800) 827-5722.
